

Brass Cast-in Nozzle Heaters

Specifications:

- Stainless Steel Sheath
- Brass Cast
- MgO Insulation
- Standard Voltage 230V
- 800V AC High Voltage Resistance
- Up to **450°C (840°F)** Working Temperature
- Built-in J Type (FeConst) Thermocouple with PTFE or glassfiber leads

Tolerances:

- H6 Inner diameter tolerance
- $\pm 0,3\text{mm}$ Length tolerance
- 100cm (39.370in) Standard Lead Length
